Pathways to the future
Tuesday 10th November, 2015

We had a fabulous time at camp last week. The students should be congratulated on their behaviour and their cooperation with each other. Some activities were quite challenging and we were very happy with the resilience showed by the students. (Photos of group 2 next newsletter.)

I would like to thank Lisa and Laura our student teacher who generously gave up their time to come to camp. I’m sure you share with me our appreciation.

We seem to be getting busier and busier in the weeks leading up to the end of the year. We hope everyone, including us, can stay sane for the remainder of the year.

Have a great week!
Wendy

Kid’s Council News
Zooper Doopers
The cost is 30cents each and they are on sale Mondays, Wednesdays and Fridays.

Remember to wear your hats in term 4

Transition Days
Our transition days have gone very well. Pictured here are Junie and Lucas on the tunnel and Junie, Lucas and Violet enjoying lunch.

Senior Classroom News
We had a fabulous time at 15 Mile Creek Camp. The students enjoyed a number of activities including abseiling, rock climbing, hiking, bike riding to name a few.

In integrated studies we are continuing with “Motion and Force” making a “Rube Goldberg Machine.

We are lucky to have student teacher Laura working in our classroom. Laura has been teaching a series of lesson on explanations in English and multiplication and division in maths.

Towards the end of this term, we will once again be testing in preparation for writing student reports which are planned to be given out in the last week of term.

Junior Classroom News
The junior class has just had another visit from our incoming Foundation students of 2016 and they have been delightful and
eager to participate in activities. We have also had Ellie (Year 1) visit us again today and we are looking forward to her being a permanent part of our school as well as Darby who will be back next week.
In Maths Year 2 are learning to calculate change from $1 and $2 ‘shopping’ activities as well as familiarising themselves with equivalent values of coins. Foundation and Year 1 are using their predictacounting skills counting by tens and fives to add up money amounts.
In Science we will experiment with balloon rockets and paper planes to observe how factors such as size and shape affect how objects move.

**15 Mile Creek Camp Capers**

The most enjoyable activity I did on camp was...
I like it all but I really enjoyed the bike ride because it was raining and really muddy. Kenz

*I probably enjoyed the canoeing the most because at the start we had to touch the yellow ball before getting it back to Sorrell’s canoe. The middle we had all these different kind of races and at the end we got to jump in and have a long swim. It was raining and really fun.* Katelyn

I liked going canoeing and having fun. The food was ok and I liked going on the bike ride. Declan

*I like the canoeing because we got to go on the water and we got to jump from canoe to canoe as if pirates were taking over the ship.* Jackson

I liked the canoeing because it was fun to be in the canoe and swim around at the end. Chevi

*I liked drenching Laura at the canoes.* Talen

I liked the bike riding because we got to go in the bush and we got to go through mud. Jack K

*I like the bike riding because it was raining and we got drenched and muddy and we went really fast down the hill.* Jesher

I liked the rock climbing because we got to climb the wall and abseil down. I reached the top and rang the bell. Roman

*I liked the bike riding because it was very muddy and it was raining. We got drenched and everyone was covered in mud.* Jack H

I liked the bike riding in the bush because we got to fall in a massive puddle. Brialeigh

I enjoyed the bike riding because we went through a giant puddle and got to swim in it afterwards. When we got back to camp, we had a shower. Charli

I liked spending time with all of my friends. Emily

I liked mountain bike riding because there was a giant puddle that we had to ride through. James
